Proudly Grown in Britain

We work directly with 1,200 British farmers in East Anglia to grow our sugar beet.

The sugar beet then travels directly from farm to local factory - the most efficient journey from field to spoon.

In just a few simple steps our factory in Bury St Edmunds turns the sugar beet into our range of homegrown sugars!

What's more we really care about sustainability; our bags are recyclable, we offset the paper we use by planting trees, we send nothing to landfill and our excess production energy powers British homes.

JUNE UPDATE

Each month Dole provides an update on what is happening in the marketplace.

We explain which new lines we expect to see in the following month, the produce causing us concern and which lines are at their very best.

OVERVIEW

It is the month where summer officially arrives with a growing abundance of soft fruit, UK veg starting to seriously flirt with flavour and a blinding array of Dutch produce confidently strutting into full swing.

Thanks to the warmer weather, some produce has arrived earlier than expected.

New season potatoes will start to roll in covered in dirt and regional pride along with increasing volumes of sun-ripened stone fruit and melons from Spain.

VEGETABLES

With the warmer weather, Cornish and Pembrokeshire have been coming in at good volumes and [illegible]

They have a distinctive earthy nutty flavour and flaky skins, making them ideal for gently boiling or lightly steaming.

New season washed Maris Peer salad potato will start up during June.

UK courgettes will be arriving in small pockets throughout the month, along with some wonderful UK bread beans and UK runner beans. Early summer UK brassicas such as cavolo nero, tender stem and broccoli will all be available.

Harvested before the peak heat of summer, the vibrant products are generally sweeter and more tender than their later-season counterparts.

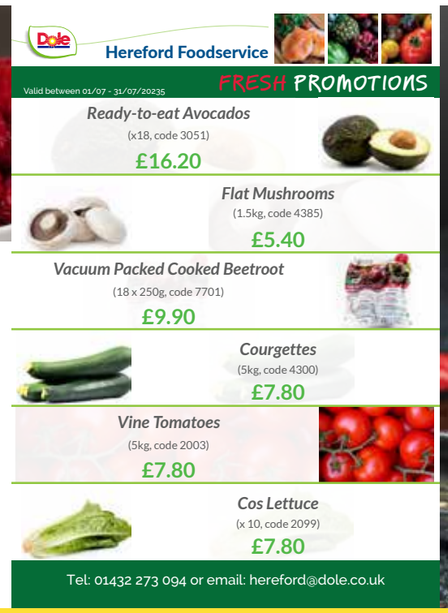

Asparagus will sadly come to an end by late-month, meaning only imported asparagus will be available. As the main carrot, swede and potato crops come to an end, shelf life will become noticeably shorter.

Keep both Old season Potato & Swede stock in cool darkened room and we would advise not to overstock, particularly towards the end of the month.

UK Carrot & Leek have now finished and will be working either Spanish or French until the new season UK becomes available during July.
